

S.No	Demo Section	Description	Duration (mins)
1	Project Introduction	Introduce the project, problem statement, objectives, and the need for the solution.	5
2	System Architecture Overview	Explain the system architecture, tech stack, and overall workflow of the platform.	5
3	Core Features Demonstration	Live demo of key modules: user management, loan management, financial analysis, and settlement prediction.	15
4	AI Features Demonstration	Demonstrate AI modules: financial health calculation, DTI analysis, settlement prediction, negotiation strategies & letter generation.	15
5	Results & Benefits	Show results, reports, and benefits of using the AI-powered platform.	5
6	Conclusion & Future Scope	Summarize the project, future enhancements, and scalability plan.	5
